

This note, that [was found here](#), as a part of [a collection](#) is written (completely with human hands) by [Rupadarshi Ray](#), was created on December 6, 2025 6:45:38 PM, was last modified on January 29, 2026 3:36:58 PM, and was exported on September 7, 2026 3:31:21 PM.

Riemannian manifolds with negative curvature fundamental group

Theorem 12.19 (Preissman). *If (M, g) is a compact, connected Riemannian manifold with strictly negative sectional curvature, then every nontrivial abelian subgroup of $\pi_1(M)$ is isomorphic to $\mathbb{Z}$.*

Current note has 4 direct children and 4 total descendants.
