

This note, that [was found here](#), as a part of [a collection](#) is written (completely with human hands) by [Rupadarshi Ray](#), was created on June 21, 2023 2:43:37 PM, was last modified on May 17, 2026 7:36:52 PM, and was exported on September 7, 2026 3:31:13 PM.

Closed differential 1-forms on smooth manifolds

In a smooth manifold M , let $\gamma_1, \gamma_2 : [a, b] \rightarrow M$ be two path-homotopic piecewise smooth *curve segments* for every closed 1-form on M

$$\int_{\gamma_1} \omega = \int_{\gamma_2} \omega$$

Current note has 0 direct children and 0 total descendants.
